Christian Child Care and Preschool

## Photo Consent/Release Form

As our children grow and develop, we occasionally look back in time and recollect those precious moments when they have celebrations, make friends, and play with classmates. We would like to capture some of these special moments in pictures and on our website. Also, as the church develops materials to invite neighbors and the community at large to take a look at our beautiful church and facilities, we are taking photos or videos within our child care. In the event that your child's image appears, we are seeking your permission to use the image in any way that will help us produce materials such as video tours, brochures, informational booklets, newsletters and other promotional materials.

### Release Form

I, the undersigned parent or legal guardian of (child's name) \_\_\_\_\_, grant permission to Abundant Life Christian Child Care to use my child's photograph or video image in any print or video production used to promote, demonstrate, or otherwise depict the services, programs, and activities of the aforementioned church and church departments. This includes, but is not limited to the church and child care websites and Facebook.

I understand that my child's image will not be provided for use to anyone outside of the authority and organizational structure of Abundant Life Apostolic Church.
